

**Addendum #1**  
**Request for Proposal**  
**Enterprise Network Replacement**  
**Job Number 32-12-IT**

This addendum is issued to add two new paragraphs in item 1 and revise two paragraphs in items 2 and 3 as follows:

1. **ADD** new paragraphs to Chapter 1, "Deliverables & Network Requirements" that read:

"The existing configuration for workstation PC's is that they are attached via patch cord to the existing Cisco VOIP handset and the VOIP handset is directly attached to the POE Ethernet switches ports via patch cords and horizontal cabling. The speed of the switch integrated into the VOIP handset is 100BaseT. The RFP has a stated quantity of (672) 10/100BaseT wired switch ports and (24) 1000BaseX (SFP) switch ports residing in the existing Cisco 6513. For the purposes of this RFP, the vendor shall assume the following criteria for replacing the wired switch ports currently residing on the existing Cisco 6513 switch. Final counts will be confirmed with the successful proposer prior to final contract.

Vendor shall propose a total of (528) 100BaseT POE switch ports **AND** (528) 100/1000BaseT non-POE switch ports to replace the wired ports on the existing Cisco 6513. These criteria apply ONLY to replacing the ports that are currently provisioned on the existing Cisco 6513. All other switches shall be replaced with 100/1000BaseT POE switches per the RFP with port quantities as defined in the current one-line drawing. Final quantity of 1000BaseX (SFP) ports is dependent on the vendor's final design."

2. **REVISE** paragraph #3 on page 7 to read: "The system shall provide network connections at 100/1000Base-T to support all client connections including desktop workstations, laptops, printers and other networkable devices. (Support for 10MB/sec connections is not required unless needed for the vendor's final proposed solution)."
3. **REVISE** paragraph #4 on page 7 to remove reference to POE+ (Standard POE, 802.3af) is the baseline requirement.

Acknowledge receipt of this addendum by signing where indicated and including this signed document with your proposal. Failure to acknowledge receipt of this addendum may disqualify your proposal for consideration for contract award.

Receipt of this addendum is hereby acknowledged: \_\_\_\_\_
